

Trial – Evaluation - Decision

Our procedure guides you step by step to test, evaluate and change to a modern, economic & sustainable system.

1

Study the current packaging and process

We analyse your current supply chain procedures and prepare an Initial Financial & Environmental Comparison Study.

2

Multitank Trial

We offer Multitank for a trial period. Trials include any kind of accessories and equipment

3

Implementation in your process

Fill – Store – Load – Unload-Handle – Empty.
A TSP (Technical Solution Provider) assists you in all stages. We support you and provide any required assistance in order to fully enhance your supply chain procedures.

4

Evaluate Results

Compare the initial Financial & Environmental Analysis with the real results of the trial period.

Choose the best way to work with Multitank. Find many flexible Leasing and Purchasing options, customized to your needs.
