

Multitank is the only RPP (Reusable Plastic packaging Container) with airtight lid. It is ideal for storing and caring meat especially for intralogistics, between factories and process facilities. Using in meat industry can replace the expensive stainless steel containers. Multitank increases safety, traceability and reduce packaging and storing cost. It can be used in very low temperatures (up to -40°C). Cleaning is very easy and precise. Maximize Safety and decrease required capital for storage containers

4 x way entry Integrated pallet

800 x 600 mm, FDA – BRC standard

Raw Material High resistant

Multitank is constructed from High Impact Polypropylene.
All gaskets are from NBR Food Grade material.
Working Temperature -40°C – 50°C.
Multitank Meets FDA and BRC Standards.

Round Corners for easy cleaning

Internal design ensure easy and precise cleaning with a typical hand pressure machines.

Safety Seals - Traceability

3 x security points for all lids
4 x Label places
1 x RFID tag
Logo personalization
Counting or code embedded printing
Personalize color

Empty using Hydraulic Multi Dumper

Constructed totally from Stainless Steel AISI 304, can be used for fast and safe emptying.

Multi Washer

Constructed totally from Stainless Steel AISI 304, can be used for fast and safe cleaning in just 180 seconds.

Load up to 15% more Net Drained Weight In 40' Ctr and Trucks

2 x Multitank in dynamic stacking allowing two levels of loading in truck or Ctr

Packaging Savings up to 50%

Multitank has the highest return ratio 6:1
6 x Full loadings return in 1 x Empty
It is economical to return back the empty ones and reuse it for many times.

Save up to 75% storage space

3 x Multitank in static stacking allowing reducing the required storage space.
Nesting empty Multitank.

Save incredible amounts of CO₂ emissions

You can achieve your sustainability goals and improve the environmental profile.

Cost Saving

- Quality Control Time
- Handling Time
- Loading time for ready products
- Unloading Time for packaging material

Long Term Asset

- 2 years Guaranty
- Minimum 7 years life time
- Asset Depreciation
- ISTA Transport Certification
