to the content, for samples, and quality control.

Up drained Hole 2” threat with filter modification *

Allow brine drain, keep olives inside.

* Optional

Safety Seals - Traceability

3 x security points for all lids

4 x Label places

1 x RFID tag

Logo personalization

Counting or code embedded printing

Personalize color

Load up to 15% more Net Drained Weight In 40' Ctr and Trucks

2 x Multitank in dynamic stacking allowing two levels of loading in truck or Ctr

Packaging Savings up to 50%

Multitank has the highest return ratio 6:1
6 x Full loadings return in 1 x Empty
It is economical to return back the empty ones and reuse it for many times.

Save up to 75% storage space

3 x Multitank in static stacking allowing reducing the required storage space.
Nesting empty Multitank.

Save incredible amounts of CO₂ emissions

You can achieve your sustainability goals and improve the environmental profile.

Cost Saving

- Quality Control Time
- Handling Time
- Loading time for ready products
- Unloading Time for packaging material

Long Term Asset

- 2 years Guaranty
- Minimum 7 years life time
- Asset Depreciation
- ISTA Transport Certification
